There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. More mistakes are unintentionally made in the sick room than anywhere else. Whispering is resorted to through kindness, but it should be abandoned. Remarks of deaths are out of order. Any remark which bears on the condition of the patient should be avoided, unless it be of a cheerful and an encouraging nature. A lady of this city, who was suffering violently, told her neighbor who called that it was caused by an apple which she had eaten, whereupon she was told of a man who had died from the effects of eating an apple. A lawyer was sick and his friends called to tell him that they helped to bury a lawyer, who complained exactly as he was complaining.

WE realize that Hon. William Jennings Bryan is a great, good and honest man and that he is a born statesman and leader, but as he has been honored with the nomination for the presidency twice and beaten the last time worse than the first, we do not think he should be made the standard bearer again, even if he seeks the nomination, which we believe he will not do. This grand country of ours is too large and material too plentiful to give one man all the honors and we hope and believe that the next four years will bring to the front a statesman upon whom democrats of all kinds can unite and elect. The INTERIOR JOURNAL gave Mr. Bryan the best in its shop in 1896 and again this year and will cheerfully support him four years hence if the party thinks him the best and most available man, but to a man up a tree it does not look at present writing like such a decision is probable.

THE Louisville Times in its usually terse and comprehensive manner thus disposes of a foolish question that has been raised: The gable about pulling off in Kentucky next year an election for lieutenant governor has nothing in precedent, law or reason to support it. Many of the States have not and never had a lieutenant governor. It is a mere fifth wheel to a wagon, and we shall run along until 1903 without such superfluity. In the meantime, the assassination press and politicians can continue to tickle their microcephalous heads with references to "young Mr. Beckham," who will, nevertheless, remain governor at the executive office, whatever may be his title and authority at the executive mansion.

FOLLOWING the lead of South Carolina, Virginia is experimenting with the dispensary system of selling liquor on account of the State and town, Franklin having been selected for the experiment. The Commonwealth gets one-fourth of the profits and the town the remainder. Under this system the liquor is sold in original packages and must not be consumed on the premises. The prohibitionists will regard this as a stronger co-partnership of the State in the liquor business than the license system and will have a well-merited kick coming.

A PROMINENT Indiana republican, who wrote the life of Lincoln, one Jesse Welk, of Greencastle, has been indicted in four separate bills by the Federal grand jury at Indianapolis for impersonating an officer to defraud the railroad companies and for forging the name of Postmaster General Smith to credentials as a postoffice inspector, which he used in defrauding the railroads.

A PARTISAN Pulaski county republican whose wife presented him with twin boys named them Taylor and Finley. The fearful load they will have to carry through life is probably better known by the defeated candidate for governor of this State than any other living being.

THE State Election Board will meet at Frankfort Monday to canvass the returns and declare the result. The only interest centres in the appellate judgeship from the 7th district and the assassins and those who conspired to the deed are waiting in fear and trembling.

BE acquitting Coroner McCullough of the killing of young Owen, the jury at Louisville seems to have given the officer the right to furnish cases to order. If they are slow in coming other wise. Fees of his office must be kept up if he is forced to slay a man a day.

UTAH gave Bryan a plurality of 51,000 four years ago, but McKinley carried the State this year by 4,000. The reason of the change is readily apparent: Hanna made a speech in an adjoining State.

CALEB POWERS spends most of his time in the Louisville jail reading his law books. He is probably fitting himself to successfully prosecute and defend at mock trials in the Frankfort penitentiary.

"ARE you for making it a crime to play foot ball in Kentucky?" should be asked every candidate for representative and Senator. If he says no, vote for his opponent—if he is a democrat.

THE postmaster at London, O., killed himself by shooting. This is one instance where a republican gave up a good job without retaining a string to it.

BREER ROCK, of the Richmond Register, has a fortune almost in his grasp. He has just been nominated for surveyor of his county.

THE Danville News seems to have filled a long felt want. It is only 178 days old and has 1,600 subscribers.

THAT good paper, The Elizabethtown News, is just entering on its 34th year.

THE republicans are exulting because Judge Boreing was elected to Congress by the largest majority ever given in Kentucky, 18,125. When it is known that they could have made it 28,125 just as well as not, the only surprise is that they did not do so. There is no limit to the voting capacity of the 11th district when the republicans need the votes. It will surprise most people to know that there are 15,281 democrats in the district, that number having voted for Hon. Ben V. Smith, the democratic candidate for Congress.

JUDGE WILLIAM LINDSAY told the Cincinnati Enquirer that he was going to New York to practice law, but would retain his citizenship in Kentucky and vote here as long as he lives. "I never expect to be a candidate for office again," he added. The last is a wise decision. After his course of the last few years, it would be useless for him to offer for anything in Kentucky. The democrats wouldn't have him and the republicans don't want him, so he couldn't be elected constable, if he were to run for it.

THE republican National campaign managers give as a reason for losing Kentucky that the men intrusted to use funds stole the money. They had been promised a majority of 12,000 for McKinley and 15,000 for Yerkes. This is pretty tough on the republican bosses, but they shouldn't have "knocked down" so heavily.

POLITICAL.

Blon Wilcoxson has been appointed postmaster at Christiansburg, Shelby county, vice O. V. Frye, resigned.

Hon. W. J. Price, a splendid gentleman and excellent democrat, has announced for county attorney of Boyle.

A Western paper is authority for the statement that the first thing the \$50,000,000 cattle trust did was to water the stock.

Contrary to expectation, Judge Evans did not instruct the Federal grand jury further regarding election offenses.

C. L. Edwards, republican candidate for elector for the 4th Congressional district in the late campaign, is dead in Hart county.

Complete returns from the 11th Congressional district show that the total vote cast was 49,932. Yerkes' majority was 19,176 and Boreing's 19,125.

It is said Judge Cantrill will not be a candidate for United States Senator to succeed Deboe, but will make the race for judge of the court of appeals to succeed Burnam.

An increase of \$6,000,000 in assessment for taxation over last year is a phase of "McKinley prosperity" the railroads in Kentucky didn't bargain for.—Louisville Times.

Gov. Roosevelt declined to remove Mayor Van Wyck from office, holding there was no proof that he had wilfully violated the law through his connection with the ice trust.

"My party will yet win the presidency," shouts an excited prohibitionist. Another crank thinks he is a poached egg and is looking for a piece of toast to sit on.—Glasgow Times.

A Baltimore newspaper says the contributions made to the democratic National committee in the recent campaign did not exceed \$200,000, while the republicans had a fund of \$15,000,000.

W. J. Bryan, in a letter, says he will continue to defend the principles set forth in the Chicago platform, believing that the American people will yet see the necessity for the repudiation of republicanism.

Senator Jones, of Arkansas, does not believe Mr. Bryan will be a candidate for president in 1904. Neither does he think the democratic party will be reorganized. The issues, he says, are matters for consideration four years hence.

Richard Tobin, one of the candidates for the democratic nomination for Senator in the Frankfort district, withdrew from the race. This leaves the race between Attorney William Cromwell, Col. E. H. Taylor and Mr. Berry South.

Chairman C. M. Barnett, of the republican State central committee, has called a meeting of republicans to be held in Louisville, Dec. 4, to discuss the recent election and to urge contests in the 3rd, 8th, 9th and 10th Congressional districts.

Hon. Hoke Smith, of Atlanta, believes Mr. Bryan's continued adherence to the Chicago platform as objectionable as the reorganization of the democratic party by persons of the East. He believes the party should stand between the plutocrat and the socialist as the party of the constitution and of the people.

The democratic primary in Madison resulted as follows: County Judge, N. B. Tarpin; County Clerk, Jesse Cobb; Assessor, George Noland; Superintendent of Schools, J. W. Wagers, and Jailer, J. C. Lackey. For sheriff, the race is undecided. J. F. Wagers having three majority on the face of returns, but P. B. Broadus does not concede this. The following had no opposition: County Attorney, J. Tevis Cobb; Surveyor, S. F. Rock; Coroner, Cliff Samuels, and Representative, C. L. Searey. Jailer Lackey received a tremendous majority, over 800, although his clever opponent was conceded a large following.

A FEW POINTS OF SUPERIORITY IN THE Radiant Home Air Blast

Over All Other Heaters:

The Practically Indestructible Air Blast Fire Bowl Produces the following results: Perfect combustion of soft coal, consuming a 1 lb fumes and gases, gaining just so much more heat than in other stoves is wasted—a great economy this. The cross drafts from the bowl causes the heat to be radiated to the floor instead of the ceiling, like other direct draft stoves—Great Satisfaction in This. Perfect control of the fire, so an even heat can be maintained and a good fire kept over night—Great Comfort in This. Will burn any kind of fuel with equal satisfaction. Don't be talked out of seeing the stove before you buy.

OIL.—Ben Hardin, who was here from Monticello the other day, told us that the oil business in Wayne is on the increase and that more than 1,000 barrels is piped out of Wayne county weekly. The owner of a \$750 farm is getting \$450 per month lease for the oil wells on it, while other men who own land in the favored oil section are growing rich almost as rapidly. The wells in that county seem inexhaustible.

FOR REPRESENTATIVE.—Hon. M. F. North announces his candidacy for the democratic nomination for Representative of Lincoln county in this issue. Mr. North and his valuable services to his party are both too well known to make comment necessary. He ably represented the county two years ago and the experience gained then will be of incalculable benefit to him should his further ambitions be realized.

A DISPATCH from Lexington says Capt. Lewellen Sharp is about to lose a leg as the result of a wound received in the civil war. The wound is in the knee and with the exception of a slight lameness, he has experienced no ill effects to this time. Dr. Blanding, who cut into the joint, found a decayed bone, and the limb may be amputated. Mr. Sharp lived at McKinney for years and he has many friends in this county who will be sorry to learn of his trouble.

JONES.—Mrs. Margaret Jones, wife of Mr. Isaac Jones, died at 10 o'clock Saturday night after a lingering illness of pneumonia, aged 71. Her aged husband and several of her devoted sons were present when she breathed her last and the scene was a pathetic one indeed. Mrs. Jones was a devoted member of the Presbyterian church and was a regular attendant at its services until old age and infirmities overtook her. She was a most excellent woman and no wife and mother was more idolized than she. After services at the home Monday morning by Rev. W. E. Arnold all that was mortal of the good woman was taken to Buffalo cemetery and laid away. Besides the husband she leaves the following sons: Messrs. Robert and Edgar Jones, of Montana, John K., of St. Joe, Mo., and Josh Jones, our countyman.

THE new democratic county committee met in the office of W. S. Burch, yesterday and selected Hon. R. C. Warren as chairman and W. S. Burch secretary. In the absence of Mr. Warren, C. G. Baker was made temporary chairman. The committee ratified the action of the voters of Waynesburg precinct No. 1 in holding a meeting Saturday and selecting M. G. Reynolds committee man. After transacting the routine business, the committee adopted the following resolution:

Be it resolved by the democratic county committee of Lincoln county that the candidates for the nominations for various county offices be requested to meet at 10 o'clock A. M., Dec. 10, at the office of W. S. Burch and that they be requested to come to some agreement as to how the nominations shall be made and that they shall select a committee to report to the full county committee the method which they agree on at 1 P. M., Dec. 10th.

Thereupon the committee adjourned to meet at 1 P. M., Dec. 10th, at the office of W. S. Burch.

Mrs. Julia Wickliffe Beckham has the unusual distinction of being the daughter, the sister, the cousin and the mother of a governor. Her father was Charles Wickliffe, governor of Kentucky in the 40s; her brother, Robert Wickliffe, was governor of Louisiana; ex-Gov. J. Proctor Knott, of Kentucky, is her cousin, and she is the mother of John Crispin Wickliffe Beckham, present governor of Kentucky.

Our Philippine Letter.

BACOLOR, LUZON, P. I., Oct. 14—Just one year ago today I enlisted in the 41st Infantry at Somerset, Ky. Left Somerset Oct. 16, '99 for Camp Meade, Pa., where the 41st Infantry was then mobilizing. I thought, or rather had an idea that I would be mustered out before a year rolled around, but far from it, and I suppose I could "stick it out" another year if I had to, but I am glad to say we volunteers will not have over nine months longer to serve at the outside, as all the volunteers will have been mustered out not later than June 30, 1901. While an order has not been issued to the effect, yet it is generally understood that the volunteers will begin to depart for home some time in November. The first three regiments to go will be the 11th Cavalry, 36th and 37th Infantry. These three regiments were organized over here and out of discharged State volunteers and regulars recruited to their full quota in the States. The other 22 regiments of volunteers will leave the islands in the order they came. There are now something like 38,000 regulars in the Philippines and the troops now in China will be brought here later on. Something like 6,000 regulars have lately come to the Philippines from the U. S., viz., parts of the 1st, 2nd, 8th and 15th Infantry, 1st, 3rd and 9th Cavalry, two batteries of light artillery, a company of engineers and something like 200 hospital corps and signal corps men. Two squadrons of the 3rd Cavalry were already in the Philippines, the third squadron arrived a few weeks ago. Of the troops now doing service in China, the 9th and 14th Inf., and Battery F, 5th Artillery sailed from Manila, as did several companies of Marines. The fighting 6th Cavalry is also in China, besides a battalion or two of a couple of more regiments. The greater portion of the troops now in China will be brought to the Philippines either the latter part of November or December. The U. S. will anyhow have to maintain an army over here of at least 40,000 men for some time to come. There are now something like 38,000 regulars and 32,000 volunteers, or a total of 70,000 troops garrisoning nearly 500 stations or posts in the Philippine Archipelago, of which about 300 are in Luzon. Despite the numerous garrisons and the large body of troops distributed over these islands there, never a day passes without bloodshed, and there is more fighting going on now than for many months. Seven or eight months ago it seemed that the insurrection would soon be a thing of the past and I have prophesied an early cessation of hostilities in many of my letters to these columns, but I think I will quit that business. Civilized warriors succumb when conquered, but the Filipino insurgent seems to take fresh courage from a series of disasters. They have never yet won a single victory except on a few occasions when small detachments of American troops would run up against an overwhelming number of the enemy. There are also frequent ambushes of small American detachments.

A civil and military prison is being established here and will soon be ready for the occupancy of some 300 Gueguas, who will be brought here from over crowded prisons. Maj. Hannay, of the 3rd Infantry, has been selected by Gen. Grant as commanding officer of the prison and Lieut. Millar, of the 41st, as quartermaster. Capt. Rattenauter, 41st Infantry, will continue to be the commanding officer of the pueblo. The detachment of our company which has been garrisoning Santa Riba has been relieved by a detachment of Co. A from Guagua, the former detachment returning to Bacolor.

Gen. Grant has paid Bacolor a couple of brief visits during the past few weeks.

A sergeant and private of Co. C, 41st Infantry, were captured a few days ago between Calulut and Angeles. They were taken to the mountains of Bulacan, where hundreds of insurgents make their rendezvous. They were only kept a few days, being paroled and sent in to their company. We are very much afraid the boys will break their parole (?) Capt. Rattenauter received an "official" notice from insurgent headquarters a few days ago saying that Gens. Mascardo and Alejandro were uniting their forces near Florida Blanca and it was their purpose to attack and harass the various garrisons throughout Pampanga province. They especially threatened to blow up Bacolor, Santa Riba and Florida Blanca. While we don't put much faith in their "warning," yet it has been a characteristic of the Filipino officer to notify the various American commanders when they propose to attack them. It is needless to say that the Americans do not do business that way.

There are only two companies on the island of Marinduque, an island of some 5,000 or 6,000 square miles, lying off the Southern coast of Luzon. The island was taken by the 29th Infantry a few months ago very peaceably. It has been the practice of many of the in-

urgent troops to cross over to the island of Marinduque when the Americans made it too hot for them down in Southern Luzon. The American authorities soon saw the advisability and need of American troops on the island. Accordingly Companies A and F, 29th Infantry, were sent to Marinduque, the former company to garrison Boac and the latter Santa Cruz. There are several Casey and Lincoln boys in Co. F, among them are Bugler Jeff T. Short, of Middleburg, and Sergeant Harry McKinley, of Moreland, formerly of Capt. W. B. Penny's company and a relative of the president.

A few days ago Capt. Shields, with 52 men of Co. F, 29th Infantry, went out for the purpose of scouting in the surrounding vicinity. The little band was suddenly surrounded by an overwhelming number of insurgent riflemen and bolomen. The entire command were either killed, wounded or taken as prisoner. A late letter from J. T. Short says that he was the only one of the boys but what was along. Two companies of the 38th Infantry are now scouring the island with the hopes of retaking some of the captured. As there was only one company garrisoning the town of Santa Cruz it can be plainly seen that was only a very slim pretense of a company left after their captain and 52 men were taken. The small detachment of 40 men which were left at Santa Cruz were besieged in a church for 15 days until relief came. They fought the enemy off for 15 long days, finally relief came at the opportune time as the little garrison's ammunition was just about exhausted.

The rainy season is slowly but surely dying out and in a few more weeks instead of mud and slush waist deep it will be dust.

Private Russell Elliott, of Casey, was killed in the assault on Pekin Aug. 15. Elliott enlisted at Somerset last summer and was assigned to Co. K, 14th Infantry, which was then doing provost guard in Manila, but which was sent to China soon after hostilities commenced. Young Elliott was only 18 years of age at the time of enlistment and would have fallen heir to considerable property when he reached his majority, but a Boxer's bullet cut his life short. It seemed for awhile that the home boys were coming out all right and were in hopes they would all get back, safe and sound, but it seems not. Two Casey boys that I know of have lately been killed and two wounded. Well must ring off, here comes the "Lightning." CLARENCE COLEMAN.

STORY OF A SLAVE.

'Electric Bitters' cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a Godsend so weak, sickly, run-down people. The Democrat is two months old today and it feels to congratulate itself. There was never a thought of failure by those who originated and started it, but in their rosiest dreams, no vision of such phenomenal success as has attended it ever appeared. Its advertising and circulation patronage is equal, if it does not exceed, the long established Lexington papers, and its prospects brighten as the days go by. The people of this section are showing in a most gratifying way that a democratic paper will be liberally supported here and "those who could not resist the yearning to have an organ" are shaking hands with themselves, while its competitors make wry faces, say spiteful things about it, and chew the rag.—Lex. Morning Democrat, 23d.

A GREAT MEDICINE.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy and find it to be a great medicine," says Mr. E. S. Phipps, of Poteau, Ark. It cured me of bloody flux. I cannot speak too highly of it. This remedy always wins the good opinion, if not praise, of those who use it. The quick cures which it effects even in the most severe cases make it a favorite everywhere. For sale by Craig & Hocker, Stanford.

"My dear child, you really should not eat your pudding so quickly." "Why not, mamma?" "Because it is dangerous. I once knew a little boy about your age who was eating pudding so quickly that he died before he had finished it." "And what did they do with the rest of his pudding, mamma?"—N. Y. World.

What most people want is something mild and gentle, when in need of a physic. Chamberlain's Stomach and Liver Tablets fill the bill to a dot. They are easy to take and pleasant in effect. For sale by Craig & Hocker, Druggists.

Speaking of the Lexington Morning Democrat, the Somerset Journal is pleased to remark: "If ever a newspaper more completely dovetailed into a void that needed filling and filled it, the record has escaped notice and comment. The paper was a success from the start, and will continue to be."

PREVENTED A TRAGEDY.

Timely information given Mrs. George Long, of New Straitsville Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery, one bottle belatedly cured her. She writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and \$1. Every bottle guaranteed. Trial bottles free at Penny's Drug Store.

DR. GOLDSTEIN

The Eye Specialist, will return to Stanford Monday, Dec. 17, 1900, for one day only.

Dr. G. Goldstein, of Louisville, will be in the city of Stanford Dec. 17 to remain one day and will fit glasses to the eyes of all who need them. He has made the study of optics a specialty and any one in need of glasses cannot do better than have him a call. He will be found at his rooms at the Veranda Hotel. Parents of children whose eyes are in any way affected should take them to Dr. Goldstein and have them examined. Too much care cannot be taken in this particular, as any neglect of parents may lead to most serious consequences in after life. If the eyes of a child need glasses the doctor can determine it and adjust such glasses as will be most apt to preserve and increase their strength. The doctor has been giving satisfaction for many years and we recommend him as worthy the patronage of the public. Those suffering with their eyes should call on him and if he don't give them relief it will not cost them anything. He can adjust to any eyes and any age a good glass, rightly adjusted is a luxury to a person with failing sight they cannot afford to do without. A glass imperfectly adjusted is worse than no glass.
